phases: (1) the initial phase, (2) the intermediate phase, and (3) the final phase. The initial phase is the period of time between the first and second phases. The intermediate phase is the period of time between the second and third phases. The final phase is the period of time between the third and fourth phases.

was at the house to see if I could
get it all right. It was very good.
The first time I had it was for a while.
