The Cabinet heard the
views of the Chairman, Malta Electricity Board,

and of the Chief Electrical Engineer on the offers received by the Board for the supply of two Loco-Alternators. It was explained that currently with that tender there was that for the supply of to the Board of one Boiler. If the quotations of any one firm for both the generators and the boiler were more advantageous if considered together, the Cabinet would agree to the acceptance of a combined offer. The Chairman of the Electricity Board was to make further inquiries, and the matter was to be considered again at another meeting of the Cabinet.
